REMARKS

Sequence Listing

In compliance with 37 C.F.R §§ 1.821-1.825, the applicant herewith submits the substitute Sequence Listing on paper and computer readable form (on 3.5" disk) in compliance with 37 C.F.R. §§ 1.825(a)-(d). The paper copy and computer readable forms of the Sequence Listing are the same.

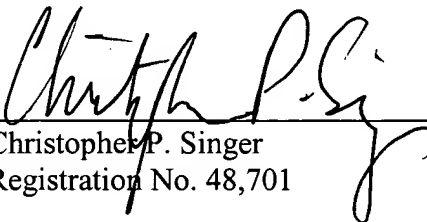

The Sequence Listing has been generated from the originally filed sequence listing. The sequence listing has amended in order to correct the errors cited in the Raw Sequence Listing Error Report. These amendments include further description of the Artificial Sequences (SEQ ID NOs 4-13) in the <220>-<223> fields, and correction of format (SEQ ID NO. 3). None of the amendments go beyond the scope of the disclosure as filed and therefore they do not constitute new matter. The Sequence Listing has been checked with Checker Version 3.0 Program. No error has been found.

Respectfully submitted,
